

Environmental Protection Policy

Todini Costruzioni Generali S.p.A., leader on a national and international scale in the design and construction of civil, industrial and infrastructural works, recognizes the utmost importance of environmental protection in business activities and pursues the objective of continuously improving the company's environmental management system.

Environmental protection is an integral part of company's financial and operative performance and is a prime means for reaching strategic goals in an extremely competitive global market.

The company therefore intends to actively promote all actions addressed to Employees, Clients, Suppliers, Authorities and Interested Parties aimed at reaching the highest environmental protection and conservation standards.

The environmental protection objectives to which Todini Costruzioni Generali attributes the utmost importance are:

- to protect the environment and to prevent environmental damage by applying good practices and operating instructions which have as little impact as possible on the environment;
- to identify and to assess environmental aspects of company's activities, to ascertain those aspects that have or can have significant impact(s) on the environment;
- to comply with the applicable legal requirements and with other requirements subscribed and/or adopted by the company and to apply the strictest standards wherever possible.

The company aims at reaching these objectives by:

- developing and implementing an environmental management system which complies with the requirements stated in ISO 14001:2004;
- establishing, implementing and maintaining environmental targets and objectives;
- guaranteeing the availability of resources (human, technical and financial) for developing and implementing the environmental management system;
- promoting an environmental protection culture within the company in line with the stated objectives;
- training employees on environmental issues;
- identifying and planning operations to avoid, reduce and/or control environmental impacts;
- ensuring a rational and sustainable use of natural resources (e.g. water, energy and raw materials);
- guaranteeing nature protection, social development and respect for the culture of the local communities where Todini Costruzioni Generali operates;
- circulating the company's Environmental Protection Policy to all members of staff and interested parties.

All Todini Costruzioni Generali employees are directly responsible for applying this Policy.

The company will be responsible for reviewing and improving this Policy and verifying its implementation.
